I have been riding for over 40 years and knew I needed a refresher: something to point out and correct the bad habits I picked up over the years. I felt that it did not make sense to train differently than I ride so I took the BRC2 course with ABATE Safe Rider and brought my wife to ride with me while taking it.

I ride most of the time with the most important person in my life behind me: why would I train differently? Get trained, protect yourself and those you love.
