

**Military Veterans Museum and Educational Center**  
 For those of you that travel Hwy 45 north through Oshkosh, you will have noticed like myself a museum south of the airport on the frontage road being built and not know what it's about. Well let me give you a short version of what I found out when Lorie and I stopped in their after an event in Fond du Lac one Saturday.

Let's start with the museum itself. When we walked in we found a small display area that is still being put together with all kinds of items veteran related. We were given a tour by a volunteer that explained what all the items were and how they came to end up at the museum. It was noted that they have 1000's of donations that are still being sorted through and figured out where to be placed. I did find our tour guide very personable to be with which always makes it easier to enjoy.

From small items like personal effects to letters from soldiers on duty around the world that laid out some very unforgettable thoughts, to big vehicles like a Russian tank, a Korean era military ambulance and personal carriers. Every item having a history that can be associated with a movie, article or show that we have seen in the past. All items were either donated or loaned from private collections to make it a well rounded but still a work in progress.

Lorie and I both enjoyed the museum. We found it very informative, interesting and would encourage everyone to stop in during their business

hours of 10-5pm Friday -Sunday. Keep in mind hours vary in the summer and during the Oshkosh Air Show so check out their Facebook page at [www.facebook.com/MVMEC](http://www.facebook.com/MVMEC). The museum is funded and staffed entirely by volunteers. This is after all what we all do when we Attend a Veterans event, run or party and a museum is just as important to me for the memory and prayers of those who served and are still serving. Hope you can make it there and support them with a donation since it is free to go through. [www.mvmwisconsin.com](http://www.mvmwisconsin.com)

# Deluxe H-D Restorations

**Deluxe HD Restorations**

You love that old bike. It was a part of your life for years. The saddle time is etched in lines on your face and the patina on your bike, as well as the great memories of runs and rides never to be forgotten. But you're not done yet, the road still beckons and soon it will be time to light it up for another season. Now is the time to do those repairs and be ready when the weathers good.

We are your parts source for high quality replacement parts for Knuckleheads, Flatheads, Panheads, Shovelheads and Evolution powered Harleys. We know what it takes to keep them running, and the best parts for the job. We stock a wide variety of replacement parts from motor and transmission to switches, wiring, cables and wheels. We sell parts that work!

Call me at 262.244.0965 to discuss your needs or see our web page at [www.deluxehdrestorations.com](http://www.deluxehdrestorations.com).
