

2014 Wisconsin Motorcycle Awareness Rally

The most satisfying event personally for me that I attended in 2014 was by far the Motorcycle Awareness Rally in Madison, WI on May 10th. This event brought riders from across the state as well as the ethnic barriers that many events seem to portray. Black and Hispanic riders on mainly sport bikes along with many other riding members on cruisers gathered side by side for a show a strength to raise awareness of motorcycles in the roadways. Many clubs and organizations were represented along with the families of riders that were killed while riding in right of way accidents.

Many riders came in groups from different directions and met up at the C.C. Riders Clubhouse for a starting point with some chatting among fellow motorcyclists. The total of riders is not known to myself, but I estimate 500 bikes made the trek to the capitol. What I enjoyed seeing was the brotherhood of all that rode side by side despite what the bike was. Once we got to the capitol, we all had a rally on the steps with different speakers from different groups including club spokesman, ABATE of Wisconsin, Sponsors and even a law-maker.

For more on this event and any future rallies go to <http://www.motorcyclesafetyawareness.com/> or go to motorcycle awareness rally in Madison, WI 2014 in a search to hear some of the speakers.

I enjoyed the friendships, fellowship and good time that was had and would like to see not just bikers getting along during an event like this but always while in the wind.

PS: A big thank you to ALL that put time and effort into the rally and especially the C.C Riders who always have the place to be when biker rights are involved.
