Larry Fluhr

Everybody
Welcome

Continued from page 8

they ride it gives you a good idea of some of their travails. In the movie "Easy Rider" the dialogue is meant to be profound and foreboding. In "Motorcycle Diaries" the dialogue is direct and real, like what you would expect from two close friends to engage in when one or the other crashes the bike into a ditch or snowdrift or suggests a nefarious way to steal dinner.

While the movie is subdued about the political eventuality of Ernesto as Che, the revolutionary, they do encounter abject poverty and social inequity along the way and we are to surmise this planted the seeds of Che's later fervor. Anyway, the movie is worth watching. It is in Spanish with English subtitles. You may have to wait for the video, since it is not showing everywhere, well maybe in Madison. It was only in four artsy movie houses in Chicagoland. One was actually the same theater I saw the "Easy Rider" premier in 1969.
