Cover Bike-"The Real Deal"

That's what Mexican Eddie said when he saw the bike; A 1969 Norton 750 Commando, with no front brake, no speedo, and no kill switch; I shut it down by taking my knife and grounding the mag to the case. The rear brake is on the handlebar. "Yes Sir Officer, see, there's my front brake". The four speed gear case is separate and shifts on the right. Dual 32mm Amal stock carbs, 10:0:1 compression with 70hp.

I've had this bike for more than 15 years now. I traded a 750 Triumph Bonneville for it. Rode it to Pompano Beach Fla., where I worked at Ace's shop(American Cycle Engineering), painting bikes and whatever else needed to be done, learned alot from him (Thanks Ace). Marshall Elmer, of LakeSide Cycle in Larson, rebuilt the motor a few years back. Taylored Hide re-did the seat in leather. This bike is a blast from the past and I love it! See ya out there.

IT'S WORTH THE TRIP

**LAURA THE POTTER
BIKER POTTERY**

Every piece is hand thrown on the potters wheel, then hand sculptured pieces added when the pot is half dry. Every piece will be different. All my products are stoneware. They are food safe, can be used in the microwave, dishwasher and the standard oven.

*Pottery is not my hobby...
It's my way of life.
When I grab that glob of earth
And move with the rhythm of the wheel,
My tactile senses come alive
To create an object of beauty and function...
It's the hardest work I've ever loved.
I've been doing this for 14 years now...
I am what I am.
Biker Pottery is a way for me to
Express my passion for bikes as well as my
Passion for pottery.*
