

R U Still a Biker?

By Dr. Gizmo Doodad

I am sitting here in my office on another cold winter day as I look through the window at two feet of snow covering the grounds surrounding my estate. I live in the northern part of the country. The winter came early this year. In the past several years our winters have been mild and I was able to catch a riding day here and there. Every real biker knows; a short putt is better than no putt at all. This year, however, the days have been frigid and I have not been able to ride my beloved chopper over the past few months.

Unfortunately the winter months leave little for us outdoor he-man types to do other than party and brag about the changes we are making to our bikes. I am installing a new dual fibulator kit with air-cooled doppelganger exhausts and a custom inferno paint job like the one I saw on the popular TV show Brute Garage. When the job is done I'm sure that I will have the fastest motorcycle on my block.

Anyway since I, and maybe you too, are not able to ride our scooters the question is, are we still bikers? Well, as the old saying goes "An idle mind is the devils workshop". Consequently I've had too much time on my hands; therefore, I have devised this simple test to see if we are all still bikers. The average person should be able to complete the following 28-question test in less than 4 hours. Just grab a stubby pencil, empty pen, or broken crayon from that junk drawer in the kitchen to get started. Good luck!
