

The Revolution Is Coming Are You Prepared

By: Skypilot Freelance Writer

First off I'm back and it's good to see Preacher has the press running again. It's been along cold winter here in Pennsylvania and there is still a couple months left. Had the bike out about a week ago and froze my body, but it was worth every mile.

The summer finished well our Original Vietnam Vets M/C Camp Out went well, bigger then ever. I had the honor of performing a marriage ceremony for a young couple from Second Brigade M/C. Yes but unfortunately some funerals as well I am a minister among my other jobs in my life. I was Ordained last November.

As you all know from the nightly News and papers the House and the President are on the Band Wagon on the rearrangement of the Second Amendment. Which our four Fathers put into place as an act to "KEEP AMERICA FREE", as Thomas Jefferson said "If America Fails It Would Be From In".

On fox news The President sign part of this into Legislation surrounded the same way Adolf Hitler did in World War Two. The problem not guns, but parenting teaching your children "THAT LIFE IS NOT A VIEDO GAME", but real life and those are real people they are shooting.

My heart goes out to Columbine and Sandy Hook students and parents a like, some lost friends others sons or daughters. "Yes fully auto matic weapons should be banned"! Last time I went hunting I didn't take a fully automatic back with Clocks with extended clips.

The young people doing these mass killings have a short circuit and we as parents see our kids on a daily basis, and when you see them playing games that are not rated for their use take them away, if you see your child acting strangely and you know your kids well enough to know there is a problem, for God's sake get them help.

Those of you who believe in the second Amendment and want it keep instead of your every move be dictated for you like in Nazi Germany. Better get up and fight to keep it let your legislators know how you feel and remind them you do not serve them, they serve you. Because once they chip away at one the others will follow and let's face it "FREEDOM ISN'T FREE" myself and others like me spilled are blood for AMERICA you have to fight for it.

I don't know about you, but I want my three Grandsons and four Children to remain in a free country. Do you have the stones to let your legislators know how you feel about your rights and freedom, or you going to be one of the sheep they led in to be killed. Well I did I wrote a two page letter to

mine.

Think hard about what I've said and do some thing before it is to late. All of you have a safe and fun riding season, please above all be safe.

South Korea turns over remains of two US soldiers killed in Korean War - the following comes from Stars and Stripes, dated November 14, 2012.

[Begin Article] South Korea transferred the remains of two U.S. soldiers who went missing during the Korean War to American custody during a ceremony Wednesday at the National Cemetery in Seoul, according to the Ministry of National Defense. The MND's Agency for Killed in Action Recovery and Identification found the remains earlier this year at Gaemi Gogae in Chungnam province. Twelve members of the U.S. Army's 3rd Battalion, 21st Regiment, 24th Division went missing there during fighting against North Korean forces on July 11, 1950.

MAKRI suspected the remains were those of Americans because of their large frames and Western-style dental fillings. The agency contacted the U.S. Joint POW/MIA Accounting Command, and both determined that the remains were those of U.S. troops, based on combat records and military items found at the site. After the remains are identified, JPAC will return them to their families. South Korea has so far returned the remains of eight troops to the U.S. www.nationalalliance.org

FRIEND OF THE WIND

He eats when he's hungry and scowls when he's mean
He's kinda good lookin', but he aint awful clean
His eyes are wind-squinted from years on the road
He stands by his values and lives by the code

His name doesn't matter cuz what's in a name
He limps just a tad, but sure isn't lame
He's geared like a mule, and wrong more than right
And gooder than gold, and pure hell in a fight

His knuckles are boney and his hairs gettin' thin
But he's in damn good shape for the shape he's in
His heart is as strong as a cylinder wall
And if a bro ever needs him, he'll ride to the call

He's sorta unlucky where girls are concerned
He goes for the hot ones, and often gets burned
They use and abuse him, those teasers and tarts
And spend all his money and break his poor heart

He works when he has to, and quits when he can
He dreams his own dreams, and stays his own man
The highway's his heaven, and his creed's "Brotherhood"
And he'd gladly ride forever, if only he could

The routes that he's traveled are mapped in his head
And so are the barrooms, backrooms and beds
The things that he's done, and the places he's been
Have marked him a brave man, and not scared of sin

He drinks when he's thirsty, and whoops when he's high
Scratches his itches, and grabs for the sky
He cares not a damn for most of the world
Just his friends and the wind.....and those fiery-eyed girls

He'll go where he's headin', and make his own way
The same that he's done since his growin' up day
He'll take no advice, and won't wash his feet
He never backs up, or admits that he's beat

He'll wrench 'til he's ragged to build a top mill
And stand by a Brother 'til Hell takes a chill
He's raunchy and righteous.....a hundred-proof man
And he'll ride forever.....IF ANYONE CAN!!!!!!
