

Squirrel Tales

This month I was reminded of my past, 22 years in fact. It was a time when things appeared to be normal. I still had my eight track player in my old beater, jamming out to Pink Floyd (I still do today, but not an 8-track). At this time I was in the Wisconsin Army National Guards, known as The Red Fox Battalion, the only threat to the USA at that time was the Iranian hostage situation, and it didn't involve sending out the guards. Today is a different type of world; terrorism, something that is new to us in a free world. We are sending troops out daily from all branches of the military including my Red Fox brothers and sisters. Your brothers, sisters, aunts, uncle's cousins, neighbors, co-worker, husbands, and wives, hey it's real shit people. Recently I was sitting on the side of the road, smoking a marlboro waiting for a convoy of buses to come by and no, they were not heading to the Rainbow Casino but through the small community of Pittsville, WI. Before my smoke stop I drove into this town and saw the children, teenagers, young, and old folks, about 40 of them waiting for the same thing that I was, the buses. It made me proud to witness this. But at a time like this I am a loner, so I drove past. I found my place just a little way down the road. As the convoy approached me I pulled out my Red Arrow and held it in my left hand and saluted with my right. It must have looked strange to these returning guards to see a biker on the side of the road, dressed in leather and waving their colors (and mine) at them. I salute all branch of our military. Past, present and future, remember always that these men and women serve to protect our way of life and the freedoms that we so dearly cherish each day of our life, at times by giving up their own. I've said my peace and you know were I stand on this issue and as an American you are entitled to yours.

Now to make this short, there are lots of runs coming up fast. Between my job, work on this rag, working on the house, keeping people happy in general, and of course getting the bikes ready to roll I need a vacation, so next month I'm gonna do just that and spend some quality time with my family, you, the Brothers and Sisters that help make my life the way I like it, FREE. So in closing let me say that if you break down in the town of Saratoga (Wood County) 7 out of 10 will stop to offer a hand. I know because it was me that broke down. Thanks to all, especially to my Bro Bear ,who is as always, there when a Bro is in need. See you on the road. SQUIRREL
