Marty's Bar

Well every now and then, I get lucky and cover two things at the same time. Marty has been advertising me for a long time. With this being so, it's been a long time coming for me to tell you about a cool bar in NE Wisconsin. Marty's was established 8 years ago and is definitely a biker friendly bar. With live entertainment on weekends, and great chat the rest of the time. Hell, he even keeps his bike in there in the winter. While Marty is always working on the bar, there is still plenty of room for a good party.

This particular night January 22, 2005 The Ant Hill Mob MC was having their X-mas party at Marty's. Many of the Brothers came up from Manitowoc for the event, making for a great time. Captain Ron provided some interesting entertainment, not that these guys need any help having fun. With plenty of excellent food on hand, it was a wild night. With that being said keeping it short and sweet, I hope to run into the mob this summer. As far as Marty, I'll talk to you soon Brother.

Marty's
