AN INDEPENDENT SHOP ASSOCIATION SHOP PROFILE:

130 MOTORCYCLE RIDERS DEPOT - 639 Grand Ave., Schofield, WI 54476-1025 715) 359-0989 mecycleps@gmail.com

Motorcycle Riders Depot is a bike shop with—down to earth—people who have the knowledge and experience to help customers keep their bikes in top running condition. From antiques to the latest models of motorcycles, they make it their business to stay current with what customers are looking for by attending the annual V-Twin Dealers Expo in Cincinnati, taking advantage of product seminars when offered, and learning directly from product line sales reps. Harley Davidson is the most popular brand, but they appreciate all brands and all vintages, and even all CC's as two restored 250cc HD Sprints are displayed in the retail show room.

Located across from the Office Bar on beautiful Grand Avenue (Schofield) the main thorough fair from Wausau to South of Wausau, we are open, Mon. - Fri. from 10:00 to 6:00, and on Sat. from 10:00 to 2:00. The retail store offers riding clothing to protect you as well as keep you looking good, unique gift items, and parts to maintain & beautify your ride, all on display to handle they're are not hidden behind a counter or in a back room. There is also a used parts section—an always operating swap meet table, referred to as the bone yard, with a life like junk yard dog painted on the wall by artist and friend Carrie Lang, giving the used parts section a real bone yard appeal.

During winter months Riders Depot offers a 15%off coupon at the Wausau Area Swap Meet at Dales Weston Lanes, is involved in the Merrill Toys for Tots, (plus donating to causes as they arise) and participates in motorcycle ice racing with the same 1200 Sportster that is used for hill climbs in June. Service customers can take advantage of relaxing at one of the nearby restaurants, lounge or the river in the back yard while their bikes are being serviced.

After 14 years of being in business together, Jon, Debra & Larry are dedicated to motorcycles and their riders by offering the best care and detail to needs. Repeat business is important to them, that's why every effort is made to make customers feel appreciated. From performance work to general repairs the same attention is given, offering options according to wants and affordability. Travelers needing assistance are a priority. When the emergency is over, suggestions are given on scenic routes to take and good places to stop at.

The Service Dep. is headed by Larry Roper, a custom bike builder, he received his education as a Tool & Dye Maker, but his passion is American Twin motorcycles. President & owner Jon Blegen is a 1998 graduate of MMI, Phoenix AZ, in the HD program. He is a service tech. as well as parts sales assistant. Debra Blegen also assists in parts and retail sales, she will sew a patch on your leathers too. A 3 person operation, qualified and skilled to handle all situations. The team has weekly meetings to make sure customers needs are met.

On Sun Aug. 24, 2008 Riders Depot will host the 4th annual Mickey Larson Memorial Bike Show and Blues Bash. The event is held to raise funds for cancer research at the Paul P. Carbone Center in Madison. This years show will have 4 to 5 bands and compilations of - all musicians donating their time and talent. The line up: The return of Deep Water Reunion, The Jerry Henry Band (a Stevie Ray Vaughn tribute band), Big Ba Da Boom—classic rock, Lee Geiger Blues Show Review and Toaster Repair, and Road Kill Express (unique duo—playing on bike frames). As in the past, the bike show is for fun and prizes, spectators are asked to "vote" for their favorite picks by placing money in the container along side the bike. All of the donations go directly to the Cancer Research Center, and each owner gets to choose a prize for showing their bike. The Office Bar co-hosts, the event is supported by: Toys For Trucks, George's Smoke House, Budweiser, Drag Specialties, Mustang Seats and the law firm of Weigel, Carlson, Blum & Clemons, S.C. A good time for a good cause. (Watch for this event in the Aug. paper)
