

The Wisconsin Army National Guard's 32nd Infantry Brigade Combat Team continues its mission on the ground during a time of historic transition in Iraq. Soldiers there are deeply involved in turning territory back over to the Iraqis as well as building public works projects, sometimes with not much more than Wisconsin ingenuity, for Iraqi residents. They are doing great things and we miss them terribly. Only a few more months until we can welcome them all home. Please send your

pictures of the soldiers or their families of the 32nd or of anyone else that is currently deployed. I want to keep this section going until they finally come home early next year, but to do that I need some more pictures from everyone. Send your pictures to lorie@freeriderspress.us or mail to: 4500 State Hwy 66, Stevens Point, WI 54482. If any soldier out there would like to receive the paper email me at: lorie@freeriderspress.us.
