About the collision Mike states "It was the most miraculous event I ever saw. It can't be explained. Angels were indeed there. I saw the deer in a full speed run-ram Dave - but his bike did not even wobble. No brake lights." *It was like unbelievable. Angels were there in force.*"

Zien's Life Saved by God's Solid Mount

The shock from the deer collision was distributed throughout the cycle's frame, because of the solid mount ferring. If anyone knows of similar incidents, please ect Bikernet.com or Freeriderpress.com know.

Any other ferring or windshield motorcycle would have seen the handle bars ripped out of the driver's hands. Please don't attempt to recreate a similar incident.

Perhaps there is other examples of how the solid mount ferring is indeed superior. Comments and constructive feedback as ever, are appreciated.

Mike Jones Miracle

In 1999 in Sturgis on the eve of my birthday, a miracle occurred. I was on the Easy Rider Bike Captain America owned by Easy Rider Magazine.

An attractive girl; distracted me and there 20-30 ft. in front of me was a station wagon at a stop sign.

I slammed the rear brake, (no front brake on that long front end) and I went to lay the bike down. Just before the collision, I released the rear brake as the bike was on its side.

Miraculously the bike stood straight up and missed that station wagon by 5-6 inches.

"God spared me for a purpose - perhaps for my music and movie ventures," said Mike.
