

Drawing at Sport Motors of Chippewa Falls, WI to benefit UCP

It don't take much for me to jump on my bike and roll, especially if I get a call from someone that wants me to tag along to a worth while event. This event was held at Sport Motors Harley-Davidson (www.sportmotorsharley.com).

With the sun shining I loaded up to meet Dave for an open house/ Motorcycle give-a-way. The music was playing, food being served up and folks pushing tickets for the bike. After eating I bought a couple of tickets for the 2011 H-D Street Glide that I figured would look really great next to my '86 in my garage. (I rarely by raffles due to funds, but since the event was at an advertisers establishment I figured I would give it a try) I didn't win but with the donation going to the UCP (www.ucpcw.org), it made me feel good, especially after meeting Chairman of West Central Wisconsin United Cerebral Palsy Ruth Gullerud. What an inspirational lady she is.

All I can say is doesn't it make you feel good to help out others. The biker lifestyle supports so many great causes and for that I salute you. Thanks to the staff at Sport Motors for the great time.

How Early is Too Early?

"My Grandma Rides A Motorcycle"

is a children's book that introduces the concept of motorcycle awareness and safety to the pre-school aged child in a fun, rhyming, easy-to-read format that not only passes our message through those little ears, but to the story teller themselves. It is our hope that by teaching our children to look for motorcycles while they are young and by continually reinforcing the concept throughout their childhood, that by the time they are ready to drive they will instinctively know how to "See" motorcycles, making the roads safer for all of us.
