The bomber hat fully covers the head and a bit of the back of the upper neck. It can be tightened up pretty well, keeping the ears toasty. The face, however, is fully exposed. That's where the leather triangle windbreak comes in. Fasten it snugly, tuck the bottom into your jacket and take off. No cold is getting in. Both products are hand made of top grade leather and have really soft, warm liners that work great.

As I've said before, I love good quality products. And that's what Casper's makes. Check out the selection of jackets, saddlebags, vests, gloves, boots and more at [www.Caspersleather.net](http://www.Caspersleather.net).

Whether you like it or whether you don't, God was a part of building this great nation. To remove him is to take away the very foundation of what this country was all about. I don't care about your political correctness!

I don't want to know your sexual preference! I could care less about all of that. Stop making it the headline of the day!

That's not America.

I want my country back!

And the only way I'm ever going to be able to get this country back is if I reach out to the brothers and the sisters that all feel the same way and we say "%@&% No! You can't have our country. " It's not for sale! Take the price tag off this country!

Take the price tag off the heads of our children! Stop it already! The politically-correct-psychobabble-hug-a-tree-experts ~ You are not qualified to release sex offenders back into our neighborhoods

The southern border, more than any other border, needs to be secured tomorrow. For all those that wish to come to this country to take advantage of her opportunity, to live under a constitution~ a living document that breathes in and out just like you do~ this country is not for sale. I should know. I'm one of the owners. You can't sell it without my permission.

I want my country back! By Rick Roberts - 760 KFMB AM
