

Have you ever been riding and all of the sudden there was a slow down in traffic? Maybe you wondered what all the people are doing at some point? Well I am a curious George and try to check out new things whenever possible.

One afternoon in mid-April I was riding home from Green Bay and I went through Shiocton on Hwy 54 and I noticed vehicles parked along side the roadway and people looking and pointing into the river. Well with this peaking my interest I stopped in by Marty at H&R Pawn in New London and asked him what all these people were looking at. He said, "The Sturgeon are rounding". I looked at him and said "Huh". After he explained that the sturgeon come up to the rocks while mating and then go down and lay their eggs.

Ok I said, that makes sense, so after a short conversation I headed out and riding along the river in New London I saw the same site as I seen earlier. Families, young and old alike all watching the fish do their thing. I turned around and parked my bike and walked over to the river. Armed with my trusty camera and a need to see something new I found that a Sturgeon (a dinosaur looking fish that can be upwards of 6 feet long) were within a couple of feet of me and at certain times while I was watching them there were 5 or 6 in the same picture. This is cool I thought to myself as I watched some mom and dad point out the different fish to their kids.

If your ever running around and not sure what is going on somewhere, stop in and see. The U.S. is full of really cool stuff. Take a pic or write a story about it and send it in. preacher@freeriderspress.us

Subject: Heard it through the Grapevine

Ted Nugent is 'testing the waters' and seriously considering entering the race for governor of Michigan.....Nugent apparently lives on a ranch in Texas most of the time but retains a Michigan primary address so that's OK.....Crazy Ted could possibly pull it off in disgruntled and overtaxed Michigan; Unlike Jesse Ventura, who won Minn. by way of the Reform Party

[I'm a fan of the Reform Party; Look at all the things Perot was 100% correct about] I'm sure Ted would run on the Republican ticket....Ted ain't shy about calling 'em as he sees 'em per illegals, welfare bums, 'ho's and pimps and gangbangers wrecking the cities and rampant socialism screwing up the works, and his thoughts on states rights, motorcyclist's rights and gun control are famous.....Don't know if there's enough of them left in the one time great state of Michigan to get Ted elected, but the hunters, fishermen, gun owners, bikers and most everybody else there who are fed up with the out of control welfare state crap and other big government failures in Michigan are no doubt dancing in the street at the prospect of Ted Nugent in the governor's mansion...

The KillaCycle - World's Fastest Electric Motorcycle

Straddling a 619-pound motorcycle, Scotty Pollackcheck tucks in his knees and lowers his head as he awaits the green light. When he revs the engine, there's no roar. The bike moves so fast that within seconds all that's visible is a faint red taillight in the distance.

Pollackcheck crosses the quarter-mile marker doing 156 mph, faster than any of the gas-powered cars, trucks or motorcycles in the drag sprints on this weekend at Portland International Raceway.

It's particularly impressive given that Pollackcheck is riding a vehicle powered entirely by lithium-ion batteries. Read more on this story at www.killacycle.com

Interesting KillaCycle Facts
The KillaCycle uses about \$0.07 worth of electricity for each run down the strip.
The bike only uses ~300 W-hr / mile. including the burn-out
Including burn-outs, the KillaCycle could make 7 or more runs on one charge
Recharges in as little as 10 minutes. (Limited by charger. Battery can be recharged in 5 minutes.)
Zero to 60 MPH in 1.04 seconds, 45 feet.
Silent, aside from the chain and some tire noise.
